WONDERGLASS

Designed by the Swiss transdisciplinary studio atelier oï, Aura explores radiance and illumination. Incised windows in the glass form appear as portals from the exterior, revealing a complex interiority. Directional lighting elements crown the work, acting like sunbeams which penetrate through and pass by the material, thereby casting vibrant light effects.

Numbered edition.

Aura is sold both as single lighting fixture and as an installation.

For future production, atelier oï will develop a bespoke creative proposal.
